## Radio Tells of Road Work

R. H. PIERMEIER, CHIEF ENGINEER (SECOND FROM LEFT) ANNOUNCING BIDS FOR MISSOURI STATE ROAD CONSTRUCTION

JEFFERSON CITY, Mo., May 5.—That the chief of broadcasting speeches direct from the floor of the Senate in Washington is nothing new to fans of station WOS here.

This is the State-owned broadcasting station supported by legislative appropriation and designed for the dissemination of state affairs by radio.

An example of the advantage of radio, especially in keeping tabs on State officials, was afforded recently when more than a million dollars worth of road building contracts were let by the Missouri State Highway Department.

The bids were opened and read aloud by R. H. Piepmeyer, State highway engineer, before the State broadcasting station microphone in the Senate chamber.

All over the State, and beyond, persons interested in Missouri's af-

fairs tuned in on WOS to hear how the bids were being handled. It was the farthest step from secrecy political affairs ever took.

The State broadcasting station broadcasting hourly, for the benefit of farmers, the latest market reports from Kansas City, St. Louis, St. Joseph and Omaha, the points to which Missouri farmers ship cattle, hogs and grain.

Twice a month WOS broadcasts musical entertainments and prisoners from the State penitentiary furnish part of the programs.

There are few paid workers at WOS, because it is operated by persons doing other State work. The last legislature appropriated \$15,000 for it two years.

The station is equipped with a 500-watt transmitter, consisting of two 250-watt oscillating tubes and two modulators. It transmits on 441 meters.

## FEW DEATHS IN UTAH

NEW YORK, May 6.—Utah has the lowest death rate of any state in the Union, figures compiled by the Metropolitan Life Insurance Company show. The mortality among the company's white industrial policyholders was 4.8 to 1900.

## DAILY PUZZLE

There is a certain number which is alike from either end, that is, if it is reversed, it is still the same. If this number is multiplied by itself, the total will also be reversible. If the new number is multiplied by the original number a third number will be obtained, which is also reversible, and if the third number is multiplied by the original number, a fourth reversible number will result. What is the original number? It has more than one figure.

Yesterday's answer:  
 The man had \$7.00. By borrowing hat amount (\$7.00) half as much more (\$3.50), and \$2.50, he made the total of \$20.00.

The unmined coal in the coal-producing countries is estimated by the United States Geological Survey at 1,208,000,000 tons.

## HEADACHES GONE TIRED NO MORE

Gives Credit to Lydia E. Pinkham's Vegetable Compound. Hopes Other Women Will Benefit by Her Experience

Skowhegan, Me.—"I was sick most of the time and could not get around to do my work without being all tired out so I would have to lie down. One day when I was reading the paper I saw the Lydia E. Pinkham's Vegetable Compound advertisement and saw what it did for other women, so I thought I would try it. I have taken three bottles, and cannot begin to tell you what it has already done for me. I do all my work now and keep up the whole day long without lying down. I have no more headaches nor tired feelings. I hope every woman who takes the Vegetable Compound will get as much benefit out of it as I have."  
 Mrs. Fessie W. Richardson, R.F.D. No. 2, Skowhegan, Maine.

You have just read how Lydia E. Pinkham's Vegetable Compound helped Mrs. Richardson. She gave it a trial after she saw what it had done for other women. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been thus praised by women. For sale by druggists everywhere.

 Good Government Club

# SOUTHERN RAILWAY SYSTEM

## Our Day's Work

THE Southern Railway System is producing more than 100,000 ton-miles of freight transportation in the five minutes you spend reading this advertisement.

A ton-mile, the yardstick of freight service, is a ton moved one mile. For example, hauling 100,000 tons a mile equals a hundred thousand ton-miles.

It is a big day's work that an 8,300 mile railway system, with 60,000 employees, does every twenty-four hours. Our average daily performance in 1923 shows these results:

Trains operated	1,250
Distance run by trains	120,000 miles
Passengers carried	50,000
Freight loaded on our lines and received from other railroads	8,000 carloads
Freight movement	32,000,000 ton-miles
Coal burned by locomotives	14,000 tons
Wages paid	\$220,000
Materials and supplies purchased	\$135,000
Taxes paid	\$26,000

If you will multiply any of these items by 365 the result will be a year's performance on the Southern Railway System.

The prosperity of millions of people in the twelve states served by the Southern depends on the faithful and efficient performance of our day's work.

THE SOUTHERN

SERVES THE SOUTH

## FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any drugstore can supply you with Zemo, which generally overcomes skin diseases: Eczema, Itch, Pimples, Rash, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins. Zemo Soap, 25c—Zemo Ointment, 50c.

## Child-birth

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary suffering through many months and up to the moment the baby has arrived. In the remarkable book, "Motherhood and the Baby," tell exactly what to do before and after baby comes, probable date of birth, baby's reflexes, and about "Mother's Friend," used by three generations of mothers and sold in all drug stores everywhere. "Mother's Friend" is safe, free from narcotics, perfectly natural, and saves during pregnancy and child-birth. It is sold at all good drug stores—everywhere.

**Genuine BAYER ASPIRIN**  
 Say "Bayer"—Insist!  
 For Pain Headache Neuralgia Rheumatism Lumbago Colds  
 Safe Bayer package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacturing Co., of Elberfeld, Germany.

## HUNT'S WASHINGTON LETTER

By HARRY E. HUNT

WASHINGTON, May 6.—Governor Al Smith's presidential boom seems to be closing a bit stronger than expected. Right after Murphy died it was thought at first that his chances were ruined but it doesn't look quite so much that way now.

Indications are that the present state of the navy is to be the subject of a considerable investigation for a long time to come. It probably is too late to get anything done on the present appropriation bill, but recent official reports by high naval authorities have disclosed the fact that the fleet is in a far worse state than anybody except insiders have realized.

The Senate investigations have been pressing so long that they are growing rather stale but they continue nevertheless.

The chief operators in the Senate office building now and then...

## IN STORM SWEEP DISTRICTS

Storms sweeping the South Atlantic States have left a trail of death and desolation in their wake. One hundred persons are reported to have been killed in North Carolina, South Carolina, Georgia and Alabama. This picture shows what the tornado left of a country mansion near Greenville, Ala.

## STATE NEWS BRIEFS

(By The Associated Press.)

FRANKLIN, May 6.—A special election of a bond issue to raise \$18,000 to replace the courthouse destroyed by a recent fire will be held May 27, according to a decision reached by officials here.

## Form New Club.

(By The Associated Press.)

BEDFORD, May 6.—Several business and professional men here have organized a Rotary Club. Thirty members of the Lynchburg Club assisted in the organization.

## Contracts Are Let.

(By The Associated Press.)

WARRENTON, May 6.—The directors of the Faguler National Bank have let contracts for the erection of a thoroughly equipped banking building on the present site of the institution. Construction work is expected to be started at an early date.

## Observes 90th Birthday.

(By The Associated Press.)

LYNCHBURG, May 6.—The "oldest inhabitant" of Lynchburg, W. J. May, has celebrated his ninety-ninth birthday. Nearly a hundred members of his family were present at the celebration.

## New Building.

(By The Associated Press.)

WINCHESTER, May 6.—The Commercial and Savings Bank, Winchester's youngest financial institution has moved into its new building.

## Horse Delays Trains.

(By The Associated Press.)

FREDERICKSBURG, May 6.—A star horse, attempting to cross the bridge spanning the Appahannock River, shipped and caught its two hind legs between two cross-ties and was held a prisoner. Three trains of the R. F. & P. were delayed.

## To Hold Election.

(By The Associated Press.)

FREDERICKSBURG, May 6.—A municipal election will be held here Tuesday, June 10. A mayor and six members of the city council are to be elected.

## MINTER NOT CANDIDATE

(By The Associated Press.)

NORFOLK, Va., May 6.—S. A. Minter, president of the Virginia Fed-

## So. Boston News

(Special to The Bee.)

SOUTH BOSTON, Va., May 6.—Jack Cozart, of Roxboro, N. C., pleaded guilty in the Mayor's court yesterday morning to the charges of transporting blockade whiskey, operating a car while in an intoxicated condition, and for carrying a pistol. Mayor Wilborn, out of respect for his aged mother, wife and three small children, let him off with the minimum sentence allowed by the law for these offenses, which was a fine of \$142 and six months in jail. The case was peculiarly sad on account of the presence in the court room of Cozart's sister and his wife and three small children. His sister, Miss M. S. Cozart, made a touching appeal to Mayor Wilborn to let him off with a fine, also pleading with him not to send Cozart to the reformatory on account of his wife and children who are dependent upon him for support. However, Mayor Wilborn had to perform the unpleasant duty of informing her that he had imposed the minimum sentence, and that there was nothing else to do but send him to jail for six months. His sister paid the fine of \$142 for the case, which was refunded to her, the officers who made the arrest, donating this amount which represented their fee for the service to the family. The Durham Buggy Company held a retaining note on the automobile, and it was returned to a representative of the company, who paid the attachment fee of \$45.

In an interview with the representative of the Register and Bee, Miss M. S. Cozart, of Roxboro, N. C., and who is a sister of Jack Cozart, said that the family were dependent upon him for support. Her father died fourteen years ago, and the mother who is now getting old, is dependent upon the children for support. She also stated that Cozart had always been an industrious boy and had worked hard, that he could not bear the idea of being in jail. This, she said, is a hard blow to the family, especially to his mother and the wife and children, but that still undaunted, they expected to go ahead and do the best they could, and that a way would be provided for him somehow. She was very appreciative of the leniency indulged in by Mayor Wilborn, and expressed her appreciation of his consideration of the family and their circumstances. Others from Roxboro testified that Cozart has always been an honest and good character, except when he was under the influence of whiskey.

## REV. McLEES TO PREACH

Rev. L. G. McLees of Chatham, arrived in the city yesterday afternoon for revival services which are being held at the First Presbyterian church. There will be services every evening at 8 o'clock, through the week. He was accompanied by Mrs. McLees. They are stopping with Rev. and Mrs. C. W. Maxwell at their home on Main street.

## HIGH ETHICAL STANDARD NECESSARY IN BUSINESS

(By The Associated Press.)

CHARLOTTE, N. C., May 6.—A high ethical standard is necessary in business to assure success to the dealer and proper service to the customer. Alfred H. Williams, Nashville, Tenn., president of the Southern Wholesale Dry Goods Association, declared in his annual address at the first business session of the organization here today. It is up to the ethical business man, he said, to outweigh "an element which unfortunately for the wholesale business does not care about the other fellow."

Reviewing the work of the association during the year just ended the president expressed the opinion that co-operation instead of "cut throat" competition would in time guide most dealers.

"It has been hard to break away from the inflated period when we are sailing on the waves of success," Mr. Williams said, "but we must now build up business again in an ethical manner. The moral fibre of business, which the war broke down must be restored if we expect to meet present day conditions. The entire system of business must be changed and for the next few years it must be smaller and turnover greater."

He declared that salesmen, as compared with "order takers" were in great demand. He also expressed the opinion that the market today is "buyers market."

## Halifax Farmer Ends His Life By Use of Shotgun

(Special to The Bee.)

SOUTH BOSTON, Va., May 6.—Charles Gilliland, a well-known Halifax county farmer, aged 45, committed suicide at his home near Younger's store this morning while his wife was visiting his son some distance away. Younger's store is approximately 14 miles northwest of South Boston.

competition would in time guide most dealers.

"It has been hard to break away from the inflated period when we are sailing on the waves of success," Mr. Williams said, "but we must now build up business again in an ethical manner. The moral fibre of business, which the war broke down must be restored if we expect to meet present day conditions. ## As a Pill Sees It.

Some folks on the outside are ugly as sin. But perfectly beautiful viewed from within.

## WIDE FIELD OF CANDIDATES IN IND. ELECTION

Both Parties to Select State, Congressional and County Nominees

(By The Associated Press.)

INDIANAPOLIS, Ind., May 6.—Indiana's state wide primary election, which has afforded Hoosier political strategists an opportunity to exercise their famous talents, is in progress today with the voters balloting for a wide field of candidates.

State, congressional and county nominees are to be selected by both parties, and Republicans may express a preference for either President Coolidge or Senator Johnson, of California, as their party's presidential nominee. No independent candidates appear on the Democratic ballots.

Fourteen candidates are in the gubernatorial contest—eight Democrats and six Republicans. The Indiana primary law requires a majority of all votes cast in order that a candidate be declared the party's nominee. Failure of any candidate to receive a majority leaves selection of a candidate to the state convention. With the possibility that no one will attain a majority the candidates have been active in behalf of delegates also to be elected today who can be counted upon for support in the conventions.

On the Republican side, Ed. Jackson, present secretary of state, expects the Ku Klux Klan support while Samuel Lewis Shirk, mayor of Indianapolis, an outspoken Klan opponent, hopes for the support of anti-klansmen. Others who have expressed antagonism to the Klan are Ora D. Davis, a Republican, mayor of Terre Haute, and George R. Durkin, mayor of Lafayette.

The Republican gubernatorial candidates, in addition to Jackson, Shirk and Davis, are Edward C. Toner, Anderson newspaper publisher, Edgar D. Bush, of Salem, former lieutenant governor, and Elias Dulberger, an Indianapolis attorney.

The Democratic gubernatorial ballot bears the names of Mayor Durkin, Dr. Carleton B. McCulloch, of Indianapolis, the Democratic nominee in 1920 and defeated by Warren T. McCray; Dale Crittendenberger, publisher of an Anderson newspaper; Charles S. Batt, state senator and attorney of Terre Haute; Joseph M. Cravens, state senator of Madison; Olin R. Holt, of Kokomo; James Kirby Risk, of Lafayette and Dr. F. A. Priest, of Marion.

Candidates for seven of Indiana's 13 congressional seats are unopposed for nomination.

Each party will nominate 25 state senators and 100 representatives.

## Calif. Holding Primary

(By The Associated Press.)

SAN FRANCISCO, Calif., May 6.—Today is presidential preferential primary election day in California. On the Republican ticket, voters were called upon to register preferences for President Coolidge or Senator Hiram W. Johnson. With over one million registered Republican voters out of a total registration of 1,499,595, interest centered in that contest.

On the Democratic ticket, delegations, preferring W. G. McAdoo, former secretary of the treasury, opposed delegates on a "no preference" ticket, sponsored by anti-McAdoo forces. The Democratic registration was 339,300. There was no contest on the prohibition or Socialist tickets, though both parties were recognized in the election with 18,281 and 17,888 voters, registered, respectively.

## K. E. Lyles Dies In Wake County

K. E. Lyles, age 72, prominent farmer of Wake county after suffering a stroke of paralysis on Thursday, May 3, died at his home Monday at three p. m. Mr. Lyles is survived by four sons and one daughter, Berry, Otto, Lennie and Matthew Lyles and Mrs. John Perry all of Wake County, also one brother and three sisters, Matthew Lyles, Mrs. R. E. Hendon and Mrs. Mary Harris of Danville, Va., and Mrs. Chas. Weather of Wake county. Mr. Lyles was a member of Hepzibah Baptist church. The pastor Rev. A. A. Phipps conducted the funeral services at the home at three o'clock this afternoon.

## PROPERTY TRANSFERS.

A deed of bargain and sale has been recorded at the office of the clerk of the corporation court conveying to J. L. Walker from J. C. Walker, 40 feet on Cabell street for \$2,000.

## PROCEDURE OF HOUSE ON BARKLEY BILL UNCERTAIN

(By The Associated Press.)

WASHINGTON, May 6.—Supporters and opponents of the Barkley bill to adjust the railroad labor board and set up wage adjustment boards were uncertain today as to the house procedure for consideration of the measure now that it is out of the hands of the commerce committee under the new rule facilitating discharge of committees from jurisdiction over legislation.

Democratic and Republican insurgent proponents of the measure after settling the bill on the floor by a vote of 154 to 181, beat off Republican organization opposition for nearly 12 hours and shortly before midnight, succeeded in fixing a three-hour limit on debate by a vote of 155 to 136.

At the end of last night's session, Representative Barkley, Democrat, Kentucky, author of the bill, was preparing to move today for immediate disposal of the measure. Republican organization leaders, however, contended it could not be taken up for two weeks under the rules and were planning to continue their opposition along this line.

Fighting the coalition efforts in behalf of the bill with Parliamentary tactics having the appearance of a filibuster, the organization Republicans forced 18 roll calls during yesterday's long contest. Friends of the measure, however, held their ranks together and claimed they would retain their majority.

The motion for discharge of the committee from jurisdiction over the bill, which proponents have charged it was attempting to "kill" through inaction was opposed by Representative Garrett of Tennessee, the minority leader and 27 other Democrats while it was supported by 40 Republicans.

## G. O. P. WORKING HARD FOR COMPROMISE RATES

(By The Associated Press.)

WASHINGTON, May 6.—Senate Republican organization leaders got to work in earnest today in an attempt to line up a majority on a compromise for the Democratic income tax schedule substituted in the revenue bill yesterday for the Mellon rate.

Chairman Smoot, of the finance committee, in charge of the bill, declared he would propose compromises on the surtax rates when the measure is brought up for final passage. He will offer a maximum rate of 30 per cent, he said, and then if necessary, 52 per cent.

## Bobbied Hair Bandit Sent to Pen

CELIA COONEY.

## BOBBED HAIR BANDIT AND HER HUSBAND PARTNER IN CRIME ARE SENT TO PEN

(By The Associated Press.)

NEW YORK, May 6.—Mrs. Celia Cooney, bobbied hair bandit and her husband and partner in crime, Edward Cooney, were sentenced today to serve from 10 to 20 years each in prison by County Judge Martin of Brooklyn.

Mrs. Cooney was sentenced to Auburn prison and her husband to Sing Sing. They had pleaded guilty to a charge of assault and robbery.

The young woman, who was arrested in Jacksonville, Fla., with Cooney April 21, held her head high as she walked into the court room to hear her sentence. Half an hour before she had told the jail warden she hoped Judge Martin would be lenient and that she and her husband could be sent to the same prison.

Cooney was sullen and watched his wife closely as the pair stood before the judge.

Judge Martin addressed his remarks to the girl, saying: "I have discussed your case with you in my chambers and you have told me about all the jobs you committed. I have had a commission investigating the mental condition of both of you. You were sane and you are sane now. You must be taught that such acts as you committed cannot be committed in this community and to unpunished. I send you both to prison for from ten to twenty years. You are to Auburn and your husband to Sing Sing."

Mrs. Cooney bit her lip, stood for a moment motionless and then turned slowly to glance at the spectators who filled the little court room. Then, preceding a deputy sheriff, she walked as briskly out of the chamber as she had entered a few minutes before. Her husband followed a few paces behind.

Judge Martin, conferring with the couple in his room before going to the bench, had drawn from them the admission that they had participated in ten hold-ups. The girl assured him that when she had done her time she would "go straight." Cooney was silent but indicated that he seconded his wife's resolution.

When the judge had left his chamber, Celia scribbled this note which she sent to Judge Martin by the attendant: "To those girls who think they would like to see their names in the paper as mine has been, or think they would like to do what I have done, let me say: 'Don't try it. You don't know what you suffer while I smile, my heart is breaking in me.'"

## THE WEATHER FORECAST

(By The Associated Press.)

WASHINGTON, May 6.—Virginia. Fair tonight, Wednesday cloudy; no change in temperature.

North Carolina. Fairly cloudy tonight and Wednesday, becoming unsettled by Wednesday night, mild temperature.

## ORDER CARS STOPPED.

(By The Associated Press.)

RICHMOND, Va., May 6.—Discontinuance of the operation of virtually all Edgewater line cars by the Virginia Railway and Power Company, in Norfolk on and after May 15, was ordered today by the State Corporation commission.

## Trial of Jenkins For Slaying Woman to Begin Tomorrow

(By The Associated Press.)

LEXINGTON, N. C., May 6.—L. C. Jenkins, former chief of police of Thomasville, tomorrow will go on trial in Davidson County Superior court here on the charge of murder in connection with the death of Mrs. Elizabeth Jones, wife of Thomas F. Jones, an Appalachee, Va., druggist. A special venire of 100 men has been called from which to select the jury. Jenkins, who is charged with having slain the woman, with whom he had been living, was arraigned yesterday and pleaded not guilty. He claims she committed suicide.

## Have You Piles?

Dr. Leonhardt's Hemroid will surely and safely relieve any form of piles—quick relief in even old stubborn cases. No cutting—no greasy salves. A harmless tablet that removes the cause. Money back if not satisfied. Ask Patterson Drug Co., or any good druggist, for Hemroid. Be sure it's Dr. Leonhardt's.—adv.

## Quick Relief for Rheumatics

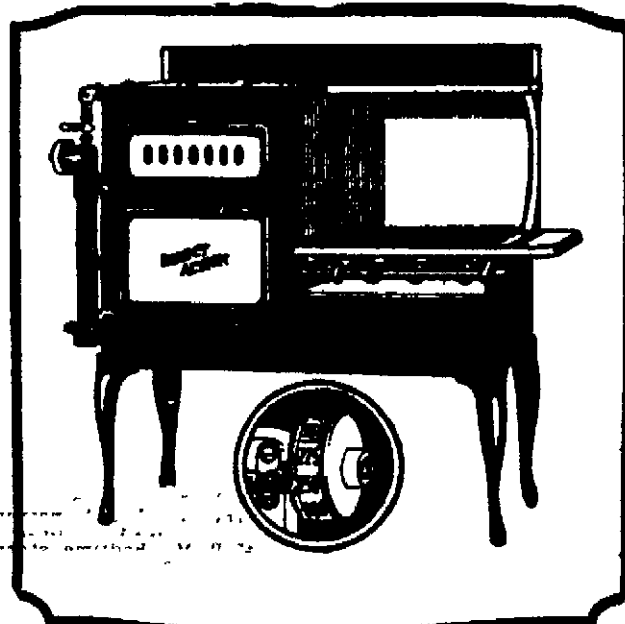

Local Druggists Sell Rheuma On Money-Back Plan.

If you suffer from torturing rheumatic pains, swollen, twisted joints, and suffer intensely because your system is full of uric acid, that dangerous poison that makes thousands helpless and kills thousands years before their time, then you need Rheuma, and need it now.

Start taking it today. Rheuma acts at once on kidneys, liver, stomach and blood, and you can sincerely exclaim: "Good riddance to bad rubbish."

Many people the most skeptical of skeptics right in this city and in the country hereabout bless the day when Patterson Drug Co. and other good druggists offered Rheuma to the afflicted at a small price and guaranteed money refunded if not satisfied. If you have rheumatism get a bottle of Rheuma today.—adv.

## Three Graduates Score In Recital

The sixth and the last but one of the series of graduation recitals at the Danville High School last night proved a very enjoyable one to the large audience that attended it. The three graduates participating were Miss Sallie Boxer Cowell, of Washington, D. C., and Miss Marion Heisel, of Chicago, pupils of Mrs. Julia E. Thomas, graduates in piano music, and Miss Marjorie DeVese Taft, of Dalton, Ga., pupils of Mrs. Laura J. Kuesel, graduate in voice culture. This trio of young ladies rendered a varied and well chosen program, in which besides meeting a test of technique and expression, they afforded a variety which appealed to the audience in the arrangement of the program.

Miss Osborne, who opened the recital, appeared three times, playing a group of numbers at each appearance. Her first was a concerto number in which her teacher accompanied on second piano. It was the Concerto in E-minor, by son of Brahms, and was typical of the German school of composers. She played the largetto and the allegro passionata, the latter a melody with a series of brilliant runs, and she played them unusually well and merited the appreciation accorded her. Her next group consisted of four compositions, the Valse Chromatique of Debussy, the Valse of Schumann, a Finnish work, and followed this by "May Night," a soft and melodious air by the same composer. The last of the group was Beethoven's Tambourin, a Provencal dance, with a delightful swing and rhythmic movement. On the final appearance she gave the climax of her performance, the famous Beethoven's Sonata from Op. 10, known to musicians as the Thatsche, giving the grave and the allegro movements, thus affording a sharp contrast in type and style and affording scope for brilliant technique. Although her numbers were handsomely played.

Miss Cowell's opening number was Beethoven's Sonata (Waldstein), a famous and a difficult work for a piano student. She played the allegro or first movement, brilliantly and merited the applause she won. In part II of the program she gave a group of melodies, opening with Schuetz's Carnaval Mignon, the prelude and the lament of Columbus. Next she gave "New York Days and Nights," a famous American composition by Whitborne. The Chimes of St. Patrick's was an unique and delightful bit of piano melody. Her group closed with Rachmaninoff's Honoreque, a masterpiece of Russian composition. This final group evoked the pianist's most brilliant work.

Miss Taft has a mezzo-soprano of rich quality and well cultivated. She sang on her first appearance, and garita, a German composition, and followed this with "Beloved, It Is Morn," often sung at marriages, and did it delightfully. Next she gave a trio of ballads of fine lyric quality and at the same time an excellent work of the singer's power of expression. This included "I Know a Lovely Garden," "Dearest," and "For All Eternity" and sang them with fine expression and effect. Decidedly her best work of the evening, however, was her singing of a Pucciniaria, an operatic selection (from La Boheme), and then "Ecstasy" by Rummel.

## WALTER S. BREWER GOES BANKRUPT

Walter S. Brewer, formerly a well known in Danville now residing in Norfolk, Va., has filed a petition in bankruptcy in the United States court for the Western district of Virginia. Notices to this effect have been received here by creditors of Brewer. It was understood that the filing of the petition was to be held in Norfolk, on the thirteenth day of May. The amount of the liabilities are not as yet known, but it is thought they will amount to a very large sum. It is not given in the notice sent out what the assets are, but it is probably they will not be more than is exempted under the Virginia law governing cases.

Brewer will be well remembered here by many Danville people, having been born here, and having resided in the city until he attained his majority. He was for some time in the employment of the Woolworth store here, and having mastered the five and ten cent line, was sent to Reading, Pennsylvania as manager. He also managed a branch store for this same company at Salisbury, Maryland.

## ARREST ALLEGED FILIBUSTERS IN FLA.

(By The Associated Press)

OCALA, Fla., May 5.—J. Fernandez, Ray Garcia and Robert Martinez, three Cubans, arrested here today by U. S. Marshal Brunsdick were arraigned late this afternoon before U. S. Commissioner C. A. Savage, Jr., on a charge of "preparing the means and setting on foot a military expedition within the United States against Cuba and certain other countries of Central America," and of conspiring to violate the recent proclamation of President Coolidge dealing with the exportation of arms and ammunition to Cuba.

The three men held no guilty and were held in default of \$2,000 each for a preliminary hearing May 15.

The arrests, according to Marshal Brunsdick, were made on information furnished by agents of the Department of Justice. The Cubans, according to the Marshal were taught to fly by men operating a fleet of six airplanes.

Three men in charge of the school, named A. J. Baker, F. M. Land, and E. J. McLaughlin, flew off in three of the planes here today. Their destination being unknown. Federal agents took possession of the three remaining planes and dismantled them.

## SPRING BOMBING PRACTICE FOR MARINE AVIATORS

(By The Associated Press)

NORFOLK, May 5.—Marine aviators will reach Hampton Roads tomorrow from Quantico to engage in spring bombing practice off the Virginia coast. Six planes in command of Major Roy S. Greiser, U. S. M. C., will be in the detachment. They will base at Hampton Roads during the maneuvers.

## UNCLE SAM'S NAVAL STRENGTH

By CHARLES P. STEWART

WASHINGTON, May 6.—The United States is behind in its naval building program.

The United States has not approached its quota of naval armament assigned to it in the historical 5-5-3 disarmament agreement of 1921.

Congress' appropriation of \$300,000,000 naval authorities say, is not enough to provide a fleet in keeping with the Washington treaty.

An allowance of \$400,000,000, they add, is the least needed to bring our navy approximately up to the 5-5-3 basis.

These salient facts are brought out from a close study of Uncle Sam's navy, its facilities, effectiveness and possibilities in time of war, how it compares with the navies of other important countries, and what this means to you and me.

By the terms of the naval limitation treaty between America, Great Britain, Japan, France and Italy, these five countries, the only sea powers, which could, were put on a basis, respectively, of 5-5-3-1.75-1.75, or capital fighting ships and aircraft carriers.

The treaty puts no limit on naval establishments except as to the two classes of ships named; none as to personnel.

In the matter of capital ships, meaning battleships and battleships, America like Great Britain and Japan, was above her quota when the treaty was signed, and had to scrap 17 of old and 11 new vessels.

### Present Strength

What strength does this leave us? We have 7873 officers and 86,000 men. On the quota basis we should have 12,583 officers and 137,123 men.

To offset the shortage we have a reserve of 4255 officers and 18,179 men. Our 86,004 men, though first class raw material, for the most part lack the long training most old world man-of-war men have had. Of the larger, long-radius vessels we have not nearly enough. Naval officers say. The others, adequate in point of numbers, lack speed and radius.

Of aircraft carriers America has one in commission and two in process of conversion from the cruiser type. Miscellaneous auxiliary craft of all sorts in commission, including tenders, supply, repair and hospital ships, collers and tug, number 196.

The principal complaint concerning most of them is they are slow and would hamper a fleet for this reason.

### What of It?

What does all this mean to you and me, to the inhabitants along the coast and to inland folks?

Forty-one horses were isolated in a stable which was made practically airtight and chlorine gas was released through water from a seventy-five pound cylinder and distributed through the stable by electric fans. The treatment caused intense coughing and profuse nasal discharge from the horses and mules. The period of treatment continued for an hour.

At the end of four days only one case remained for treatment, the others all being cured. Today it was declared there is not a single case of influenza in the fort stables.

### MORE EVIDENCE GIVEN AGAINST DAUGHTERY

(By The Associated Press)

WASHINGTON, May 5.—Former Attorney-General Daugherty personally intervened in the litigation over New England Railroad combinations. It was charged today during the Senate enquiry, to relieve the New Haven line from the necessity of obeying the anti-trust law.

### CHLORINE AS INFLUENZA REMEDY IS DEMONSTRATED

(By The Associated Press)

BALTIMORE, Md., May 5.—Chlorine as a remedy for animal influenza was successfully demonstrated at Fort Myer, a third corps area army post. It was learned at the corps headquarters here today.

Map shows how congressmen from the various states voted, in April 1922, on a naval allowance of \$300,000,000, a sum quite inadequate for a fleet in keeping with the Washington treaty basis of "5-5-3-1.75-1.75". The larger amount given in each state is the average per capita cost of a \$300,000,000 navy for 1922. The smaller amount is the additional cost necessary to increase the appropriation to the \$400,000,000 needed to bring the fleet approximately up to the 5-5-3 basis.

Three centuries ago inland England was desperately poor. The inlanders objected to any "waste" of money on warships. Let the coastal fringe worry. What use had they for a navy?

Then England's foreign trade began to develop. The inland counties began to prosper. The coastal fringe did the shipping but the inlanders supplied the goods for export. To deliver these goods abroad ships were needed—any to protect the ships, a navy. Then the inlanders saw what a war fleet meant to them—even to them, as inlanders.

### Exports Help

In 1920 American exports reached about \$3,108,000,000.

A drop of some \$4,338,000,000 in exports followed.

Times tightened. Agriculture especially suffered.

Of late exports have been picking up somewhat. But not enough.

The farmer's beginning to get the point. He's clamoring, quite properly, for a more intensive development of America's export trade.

But does the inland farmer get this idea, too?

A mercantile marine is necessary to the development of a country's export trade, and without a navy no country can keep a merchant marine.

Of late exports have been picking up somewhat. But not enough.

The farmer's beginning to get the point. He's clamoring, quite properly, for a more intensive development of America's export trade.

But does the inland farmer get this idea, too?

A mercantile marine is necessary to the development of a country's export trade, and without a navy no country can keep a merchant marine.

Exports Help

In 1920 American exports reached about \$3,108,000,000.

A drop of some \$4,338,000,000 in exports followed.

Times tightened. Agriculture especially suffered.

## Keen St. Baptist Church to Build

Danville is to have a new and handsome church edifice and one of large proportions and of the most modern type. It is to be reared by the congregation of the Keen St. Baptist church, of which the Rev. J. R. Hite is pastor and its cost is estimated at \$40,000, but if the usual rule holds good with respect to construction contracts, it may cost even more. Besides approving the recommendation of the Building Committee—P. S. Bennett, chairman; M. R. Hodnett, J. E. Lester, T. W. Marshall, J. B. Lester, Oakley Chaffin and J. W. Clifton—the congregation pledged one-fourth of the estimated cost. Located on the site of the present small frame church, the new edifice will be one ample in proportions, architecturally

**NEW YORK STOCKS.**

(By The Associated Press.)

NEW YORK, May 6.—Resumption of short selling operations, which were checked temporarily by the reduction in the re-discount rate, imparted a reactionary tone to stock prices at the opening of today's market. Oil shares were sold freely on the publication of unfavorable production figures and bear attacks were opened on Baldwin, American Can, Davison Chemical, Colorado Fuel and other active issues.

The ease with which professionals made headway against Davison, in which bullish pool operations presumably have been under way encouraged renewed selling of other standard industrials. Pressure was applied to United States Cast Iron Pipe, General Electric, Studebaker, Crueble and Yellow Cab Manufacturing all of which were depressed 1 to 2 points. Sugar stocks also sold as a result of recent price concessions in the industry. United States Steel and

Bethlehem yielded fractionally. Moderate advances were registered by a few railroad shares, including Chesapeake and Ohio, ex Haven Rock Island and Canadian Pacific. Nash Motors left an outstanding exception to the trend of the industrial list, jumping 4 points. Foreign exchanges opened steady.

**NEW YORK COTTON.**

(By The Associated Press.)

NEW YORK, May 6.—The cotton market opened steady at an advance of 2 to 5 points on steady Liverpool cables and overnight buying orders, but turned easier after the call under realizing and southern selling accompanied by reports of beneficial showers in the southwest. May eased off to 29.49 and October to 24.19 making net declines of 10 to 20 points on the active months. There was trade buying of new crop positions, however, and further covering by old crop shorts which caused rallies to about yesterday's closing quotations by the end of the first hour. General business was quiet. Much of the selling here seemed to come from New Orleans and other southern points.

May ..... 29.49  
July ..... 27.95  
October ..... 24.19  
December ..... 23.72  
January ..... 23.40

**NEW ORLEANS COTTON.**

(By The Associated Press.)

NEW ORLEANS, May 6.—The cotton market had a very quiet opening. First trades were 3 points down on July and 5 up on October with no trading in the other months at the call. As Liverpool was lower than due and weather advices were generally favorable, the feeling was rather easier in the early trading but there was little disposition to trade until the character of the showing by the weather map should become available. July eased off to 27.30 and October to 23.48 or 12 to 18 below the previous close soon after the opening call, but most of this loss soon was recovered.

May ..... 27.40  
July ..... 27.45  
October ..... 23.64  
December ..... 23.34  
January ..... 23.29

A reduction of more than five per cent is to be made in the pay of British officers.

Senator David Ignatius Walsh of Massachusetts is a jovial individual. But he seemed to be in an unusually merry mood when the photographer caught him coming out of the Senate office building. The Massachusetts senator isn't to be confused with Senator Thomas J. Walsh of Teapot Dome. The latter is a quiet, unassuming man who has in common with his last names and the fact both are Democrats.

**MORNING STOCK LETTER**

Thomson & McKinnon

NEW YORK, May 6.—The people who are trying to buy the oil group ought to find some new arguments. They have talked exhausted supplies and prospective shortage until a good many are tired reading about it. May be some day in the distant future may be such a condition but it certainly isn't in sight now.

The sales of General Motors Company gives you a pretty good line on business. And business is already making some inroads on wages, one where another big carport company has a size of 4,000 employees. For about a week I have talked to about the short interest in the market. It is the only sustaining factor in the market and when reduced, I think value will slip again.

**MORNING COTTON LETTER**

Thomson & McKinnon

NEW YORK, May 6.—Cables as due on old, a little better on new. Forecast is for showers in all states except clouds in Oklahoma and Texas, but it was raining last night in Arizona. Rain in Northern Texas now would be regarded as unfavorable, interfering with replanting.

Worth Street had a quiet day yesterday. Curtailment in domestic mills is increasing.

The market seems to be only a narrow trading proposition for the time being but may rally some today. If unfavorable weather in Texas is confirmed.

**TRIAL IS POSTPONED.**

(By The Associated Press.)

RICHMOND, Va., May 6.—The trial of Walter R. Hines, convicted of shooting to death Patrolman Washington I. Curtis here several years ago and who was granted a new trial recently by the State supreme court of appeals, was postponed today until June 17.

**The REFEREE**

BY ALBERT APPLE.

**UNIONS**

The open-shop campaign has hit the organized labor movement a severe blow. In 1920 the American Federation of Labor had a membership of 4,078,740. It lost 710,000 members in 1922 and 269,167 last year. These are the figures of the Labor Research Department of the Rand School, friendly to labor.

The drop in membership is surprising for last year, which was a widespread period of shortage of skilled labor.

Meantime, capitalistic organizations have gained power instead of lost. They are wise enough to recognize the power of organization. And they stick to it through thick and thin.

**VICTORIES**

Organized labor last year won more disputes than employers, for the first time since 1916, the Rand School reports.

Over a period of two and a half years 692 disputes were won by labor, 1095 by employers and 505 were compromised.

It is not many years since employers won all disputes except in the rare occasions when they made concessions out of "goodness of their hearts." The tide is turning since labor copied capital by organizing.

We wonder how many disputes were lost by that great third party, the unorganized public.

**SAVAGE**

The big game-hunter, Carl Akeley, says: "Once of my native boys appeared a young gorilla. I came to it as it lay dying. Its mother was already dead. When it saw me, it stretched out its infant arms in appeal and cried when I touched it." "Some people call this sort of thing 'spot'."

**VALUE**

A document bearing the signature of George Washington and his wife is sold at auction for \$225. Most of us would sign our name 10,000 or more times for that much money.

The big price, however, was paid for rarity rather than because of the Washington signatures. If George and Martha had left a million signed papers they'd be worth less than a dollar apiece. That's why collectors pay fabulous sums for scarce coins of modern times while coins minted 2400 years ago and still existing in great quantities are worth next to nothing.

**SMOKES**

Americans are using 140 cigarettes for every 100 used in 1922, judging by factory output.

Cigars and pipe tobacco continue slumping steadily.

The cigarette, made "respectable" by the war, is our National Smoke. Fifty cigarettes a month are being manufactured for every man, woman and child in our country.

**Funeral of Mrs. Lee to Be Held Tomorrow at 4**

(By The Associated Press.)

RICHMOND, Va., May 6.—Funeral services for Mrs. Mary Tabb Bolling Lee, widow of Major General W. H. F. ("Rooney") Lee and daughter of Lee, who died last night in her suite at a local hotel. The United Confederate Veterans, Sons of Confederate Veterans, Daughters of the Confederacy, the Confederate Memorial Loyalists Society and other Southern organizations also were planning to pay proper tribute to the dead.

Mrs. Lee came here about three weeks ago from Summerville, S. C., where she had spent the winter. She appeared to be in normal health, but last week she developed a weakness which gradually grew worse until Saturday when her son, Dr. George Bolling Lee, of New York, announced he feared his mother would not survive the night. She lingered, however, until 10:25 o'clock last night when she passed away.

Mrs. Lee was born in Petersburg, Va., on August 20, 1847, the daughter of Mr. and Mrs. George W. Bolling. She was married to "Rooney" Lee in Petersburg in November, 1867.

Mrs. Lee's body now is at the home of a cousin, Mrs. Hugh Aultrill.

The Beverley D. Tucker, rector of Saint Paul's Church, will conduct the funeral services in Richmond. He will be assisted by the Rev. G. Freeland Peter. From the church the body will be taken to the private car of Eppa Hunton, president of the Richmond, Fredericksburg and Potomac Railroad, which will leave at 5:15 o'clock for Lexington.

**Many Witnesses In Langley Case**

(By The Associated Press.)

COVINGTON, Ky., May 6.—A score of witnesses were here today to testify in the trial of Congressman John W. Langley, Kentucky, and others charged with conspiracy to defraud the United States government by illegal removal of whiskey from a bonded warehouse. The trial opens before Federal Judge A. M. J. Cochran. Co-defendants with Langley are M. E. Huth, Alliance, Ohio; Walter B. Carey, Canton, Ohio; Milton Lipschutz, New York, and Albert F. Slater, Philadelphia.

**REWARD FOR DYNAMITERS**

(By The Associated Press.)

STAUNTON, Va., May 6.—The board of supervisors of Augusta county today offered a reward of \$1,000 for information leading to the arrest of the person or persons who dynamited two toll gates on the Middlebrook road near here at midnight April 29th. The supervisors reiterated their determination to enforce the road toll gate law which went into effect April 15 and for violation of which several persons have been convicted. The law has been met with stern opposition, resulting in mass-meetings by both its opponents and proponents.

**Board Re-Opens Rate Question**

(By The Associated Press.)

WASHINGTON, May 6.—The preferential rate question was re-opened today by the Shipping Board which had before it several proposals looking to modification or withdrawal of its certification to the Interstate Commerce Commission that adequate American tonnage was in operation to warrant putting into effect section 28 of the Marine act.

The board's certification has been followed by considerable discussion as to the advisability of making the section which was designed to encourage use of American tonnage by American shippers through establishment of preferential rail-and-ocean rates, effective at this time.

The board before the board today included plans for modification of the certification, suspension of the operation of section 28 until December 31, 1924 and withdrawal of the certification for six months pending further study.
